DEAR FRIENDS,

It has been just over 18 months since the last election. During the 2021 election, many people didn't realize that the Chinese Communist Party (CCP) was actively working to subvert our election and tilt the result to Justin Trudeau.

In the past month, it has since come out that Prime Minister Trudeau had been briefed on multiple occasions by Canada's spy agency CSIS. It's been revealed that the CCP has been funneling money to the Trudeau Foundation and has engaged in a well-organized campaign to get certain Liberal candidates elected, going back multiple past elections.

What has been Prime Minister Justin Trudeau's response? After first denying it, he finally came clean saying of course he knew about the CCP influence, but to him it was unimportant because the Liberals were going to win the elections anyhow. His ultimate belief that the Liberals are the rightful rulers of Canada, and that ultimate power is more important than the democratic rights of the citizens of Canada, made him dismiss the need for a public inquiry. Not only that, Trudeau has given his Liberal MPs license to block every opportunity for parliamentary committees to investigate this matter.

Obviously, this is extremely concerning for Canadians across our country, and I have heard from many constituents of Saskatoon West on this matter.

I want to hear your thoughts on this important issue. I invite you to respond to my survey card attached—no postage required! I read each response personally and value the feedback that constituents share with me. If you need my help on any federal issue, please contact my office at (306) 975-6555 or email: brad.redekopp@parl.gc.ca. Thank you again for entrusting me with the honour and privilege to represent you in our Parliament.

The End of Internet Freedom in Canada?

SINCE THE INCEPTION OF THE INTERNET and everyday adoption of social media into our lives, those of us living in western societies like Canada have heard the horror stories of brutal regimes like Iran, Russia and China controlling what people see and read on the internet. Thankfully, we have a government in Canada that has never attempted to bring in legislation to copy these countries to control what you see and read... until recently!

If these gatekeepers decide that your post doesn't fit within the government's approved guidelines, they can legally force these platforms to remove it. If there is a news article critical of the Prime Minister, the algorithms of the platforms are adjusted to make that article disappear while anything that praises that very same Prime Minister goes straight to the top of your feed.

The current NDP-Liberal coalition government in Ottawa has introduced several laws in Parliament intending to restrict what Canadians can access, see and read on social media and the internet. Bills C-11 and C-18 give power to government-appointed gatekeepers to decide what you can and cannot post or see on Google, YouTube, Facebook, Instagram, Twitter, TikTok, Twitch, and any other social platform you may use.

Conservatives, such as I, believe this is absolutely wrong. In Parliament, we have been fighting this legislation tooth and nail. Unfortunately, with the Liberals, NDP and Bloc Quebecois all in favour of controlling what you access on the internet, we are fighting a losing battle. That is why it is up to individual Canadians to decide if they still want a free internet or not. If you do, I encourage you to visit my social media channels where you can find more information (*at least for now*) about how you can help!
